## Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

[e1]1. (Currently Amended) A <u>computer-executable</u> method of displaying a document associated with a thumbnail generated based on an original document, comprising:

displaying the thumbnail corresponding to an original document and including an enhancement in appearance;

receiving a request to display athe original document-associated with the thumbnail;

displaying a first version of the <u>original</u> document, at least a portion of the first version being more similar in appearance to a corresponding portion of the thumbnail than a corresponding portion of the original document.

[e2]2. (Currently Amended) The method according to claim 1, further comprising displaying a second version of the <u>original</u> document in which a portion corresponding to the at least a portion of the first version is more similar to the corresponding portion of the original document.

[e3]3. (Currently Amended) The method according to claim 2, wherein the second version is substantially identical to the original document.

[e4]4. (Currently Amended) The method of claim 1, wherein the corresponding portion of the thumbnail comprises an element modified during generation of the thumbnail.

[e5]5. (Currently Amended) An information storage medium on which is recorded a program for implementing the steps of claim 1.

[e6]6. (Currently Amended) An apparatus for displaying a document associated with a thumbnail image created based on an original document, comprising:

a display device; and

a controller that:

displays the thumbnail image via the display device, the thumbnail corresponding to an original document and including an enhancement in appearance;

receives a request to display athe original document associated with the thumbnail image; and

displays a first version of the <u>original</u> document via the display device, at least a portion of the first version being more similar in appearance to a corresponding portion of the thumbnail than a corresponding portion of the original document.

[e7]7. (Currently Amended) The apparatus according to claim 6, wherein the controller further displays, via the display device, a second version of the <u>original</u> document in which a portion corresponding to the at least a portion of the first version is more similar to the corresponding portion of the original document.

[e8]8. (Currently Amended) The apparatus according to claim 7, wherein the second version is substantially identical to the original document.
